ABOUT THE CONFERENCE

International Conference focused on ‘**Emerging Trends and Approaches in Education**’ is organised by Kumadvathi College of Education, Shikaripura. In the present scenario the teaching and learning process needs new technologies to bring change in existing system for fulfillment of predetermined educational objectives. Earlier, books were only the source of instruction for individualized learning and teaching. Today the type of instructions have expanded to different modes like text books, Reference books, workbooks, magazines, booklets, comics, programmed books, modules, PLM, motion pictures, photographic slides, Programmed Pen drives, blended learning technologies, Online Teaching, films, audio discs, charts, Models, photographs, drawings, simulation games, e-learning, interactive white board, flip class, social networking, Constructive Learning, Discovery Learning, Mobile learning, Video Learning, Web based instructions, Computer aided interactive learning etc.

It has been proved through research studies by individuals and institutions that information and communication technology (ICT) can make the teaching learning process more effective and efficient if utilized intelligently.

There are some other teaching methods are also have been using in higher education like Constructive Methods, Demonstration, Discussion, Story Telling, Role Play, Visits, Project, Laboratory, Assignment, Quiz, Problem Solving, Dialogue, Question Answer, Webinar and Webinar method, Lecture with Power Point Presentations, Flip Class, Lecture with Audio and Video presentations, Online Teaching etc. but only limited number of teachers and institutions are using these methods regularly.

A new paradigm of teaching and learning is needed to increase the pupil’s active participation in the present situation like, App Innovation, Gamification, Digital Library, Self-directed professional development and collaborative learning. Etc, the transfer of textual learning contents through online learning involving Artificial Intelligence, Virtual Reality and Augmented reality content. This transition is more effective in the students and teachers involved in remote learning.
