ABOUT THE PROGRAMME :

Introduction

The traditional "Chalk and Talk" method of teaching that has persisted for hundreds of years is now getting revolutionized with modern and innovative teaching methods. This is because modern teaching has become more thought provoking and is in synchronise with the belief that any teaching not resulting in effective learning is redundant. Hence, any method of knowledge transfer that serves this purpose can be considered as an innovation in teaching. Apart from this, the use of new approaches innovative methods in educational institutions has the potential not only to improve education but also to empower people, strengthen governance and galvanize the effort to accomplish the human development goal for the country.

Therefore, to be an effective teacher, one needs to deliver domain knowledge by using the most suitable pedagogical tools. An effective teacher is also required to remain at the frontiers of knowledge in his/her areas of expertise and to impart the same knowledge to the students. For this, every teacher needs to continuously upgrade himself/herself by engaging in research and learning to inculcate in their students, the right attitude towards education.
